Certificate of Research Project Participation

This is to certify that **CHENG-YUN WU** participated in the
“ESG Sustainability Commitment Verification Competition and Annotation Data Collection Project,”
conducted under the AI CUP 2026, Ministry of Education.

During the project, she contributed to the development of the VeriPromiseESG4K Annotated Corpus, a
research dataset based on real-world corporate sustainability data, through data collection, data curation,
annotation, and related research activities.

Her participation contributed to the development of research resources for the AI CUP 2026 ESG
Sustainability Commitment Verification Competition and supported research on AI applications in
sustainability and corporate sustainability information analysis.

This certificate is hereby issued as official proof of her participation in the research project.
